

**Amendments to the Drawings**

A proposed correction to **Figure 4B** adds an ampersand symbol for element **410**, such that it now reads "&datastream". This is supported in the specification on page 14, line 21 - page 15, line 1, which states that the result **410** is passed "in the form of a reference to a datastream object"; the ampersand symbol is well known to indicate an object reference. (See also page 9, lines 20 - 21, discussing a similar data stream object reference **417**, which is shown in **Figure 4A** as including an ampersand.)

A proposed correction to **Figure 5B** removes a typographical error in element **506**, replacing "restult" with "result".

No new matter is introduced with these proposed corrections, which are supported in the specification as originally filed.
